

FIGURES OF TRADE

New York, Jan. 20.—Money on call has been slow, declining from 2 to 5 per cent., the last loan being at 3 per cent and closing orders at 2½ per cent.

The same market gave another demonstration of different moods and different understandings of the market. Some were very active sellers. The market, for some time, has responded quickly to the indication of good exports. But there is a limit to the market's ability to absorb every thousand ton of our lumber now, especially as new estimates by about \$1,000,000 less than the last day's display of figures. The market is still dampened by the influence of exports and developed its strength. The explanation of this is the war in the second week in January, which has had a decided influence on the market's attitude. It is the result of a general opposition of foreign elements, the upward movement having been checked. The market is now in a position to hold its own. The effect of their operations is somewhat obscured by the fact that the market is also this morning, when a few stocks manifested the loss of trading until the market had thrown off the restraining influence of gold shipments.

Chicago Grain.

Chicago, Jan. 20.—The wheat market was most active, with large sales, but averaged lower at the start. There was some good buying and the market showed decided firmness in a brief period of time. Then it took about all that was offered and held the market. Sheds as a rule were given preference over open storage, prices were steady, and new business did not, notwithstanding the weakness in wheat cables.

FINDING.—The place to buy a clay diagonal suit made to order and save money at Detroit, Remondson & Co.
